How to Seduce a Gemini Woman

Gemini is a mutable air sign, always needing mental stimulation. One hot tip: use words, words, words to seduce Gemini!

Seduction is in the use of your language. If you want to seduce a female Gemini, you will have to use words, talk to her to keep HER talking.

Communicate your ideas and thoughts, your moods... with her.

Ask lots of (personal) questions and always change topics.

Seduce Gemini by stimulating her brain: talk about what you're doing now and, then, jump to what you will do tomorrow (with her...).

Seduce Gemini by seducing her mind FIRST! Also know that the female brain differs from the male brain.

One of these principles is to capture her curiosity and let it HANG.

Create TENSION and CURIOSITY, create a "cliffhanger" in your conversation – a suspenseful situation in which you don't know what will happen next - to snap right back Gemini's attention.

Female Gemini can be moody, restlessly and unpredictably flowing with the wind: one day she will

come to you, the other day she is unaware of you.

Just play this same game if you want to seduce Gemini.

Geminis need plenty of variety. Geminis get bored very, VERY easily.

Be quick-minded and alert. Gemini can't stand slowness.

Seduce Gemini by showing interest in novelties and keeping up-to-date. Don't appear old.

Give Gemini some genuine surprises.

Female Gemini is restless, so take her out. Gemini hates boredom and routine and is not very domestic.

If she feels boxed in, she quits!

Seduce Gemini by following dance lessons, learning foreign languages, traveling,... Share her (versatile) interests.

+++++

How to attract the Gemini Woman

If you want to attract Gemini, make sure you can arrange a walking-talking.

You are advantaged if you are younger than her, a boyish man or a teacher.

Keep an eye on her hand movements (the hands are symbolized by Mercury!) and if she occasionally and unconsciously points or stretches her hands to you, she likes you.

Take her hand (don't put your hands all over her!) and lead her to a place where you can start a conversation or arrange some shared activities.

Gently taking a woman's hand on the appropriate moment is a great way to seduce her.

Geminis love gossip. Use this as an opener.

Don't forget that Geminis often love to "play games"

and are in a constant state of adolescence.

Try to keep up with that.

If you want to attract Gemini, ask her about her plans and ideas.

Female Geminis have so much plans in their head and seldom the courage to execute them.

If you want to attract Gemini, help her executing her plans.

The Gemini woman craves attention and needs a lot of stimulation!

The Gemini woman is VERY fickle (one of the most unstable signs of the zodiac) and you'll have to show that variety is the spice of your life too!

Also, read our Gemini seduction page for some additional tips to seduce the female Gemini.
